DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Independent Claim 1 is allowable because the hanger assembly having an upright bar extending upwardly from the backrest with a hanging member thereon specifically requires the combination of an upwardly extending hooking member and adjustable arm portions for engaging the lateral edges of the back rest for securing the device to the backrest of a chair. US Patents 1,722,122 to Wilson, 6,220,489 to Sato, 2,255,973 to Hoobler, 4,957,230 to Gonzales, and 5,058,790 to La Velle are the best examples of the prior art of record. These references teach many similar hangers in combination with the backrest of the chair, but each fails to teach both an upright hooking member and adjustable arm portions for engaging the lateral edges of the backrest of a chair.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
